Welcome to HTFT Partnership

Welcome to HTFT Partnership, **the premium provider who offer a personalised approach to your CIMA exam success.**

We offer a range of courses towards CIMA professional qualifications and we believe our students should not view their study as being separate to the workplace but rather should understand how they will utilise their studies in their day-to-day work and be able to contextualise their studies as being supportive in their development as fully qualified finance professionals.

The HTFT Partnership approach is to ensure the programmes we deliver fits with the busy work times of our clients and supports them in developing as good professionals.

Different students have different learning styles. Our programmes ensure that all learning styles are addressed.

All HTFT students will be encouraged to think for themselves and all tutors will put that into context as part of the approach to achieving the CIMA qualification.

You can aim to complete a level of the [CIMA Professional Qualification](#) in 12 months as a standard 'average'. However some like to do this much quicker and others like to take more time, it all depends on the individual. Some will be balancing studies with a busy working life, family commitments or other studies, you can take a steadier pace or progress faster - it's up to you!

Exams on demand

With CIMA, you choose when you want to sit each exam, and you can choose where you take it from more than [5,500 Pearson VUE test centres](#) around the world.

CIMA have more than 229,000 members and students in 176 countries, and with the formation of a new accounting association, once you become a Chartered Global Management Accountant, you'll become part of a world-wide community of over 600,000 current and next generation finance professionals.

CIMA Certificate in Business Accounting

The CIMA Certificate in Business Accounting (Cert BA) will help students with little or no accounting experience unleash their true business potential. Teaching core business and finance skills beyond simple financial accounting, Cert BA syllabus is the perfect stepping stone towards a career in business and finance.

The Cert BA is a qualification in its own right and also forms a formal entry route into the CIMA Professional Qualification. Once students successfully complete both qualifications and qualify for membership, they will be awarded the Chartered Global Management Accountant (CGMA) designation.

The syllabus

The Certificate in Business Accounting syllabus consists of four subjects:

- BA1 focuses on the economic and operating context of business and how the factors of competition, the behaviour of financial markets and government economic policy can influence an organisation.
- BA2 teaches students fundamental knowledge and techniques that underpin management accounting.
- In BA3 students will obtain a practical understanding of financial accounting and the process behind the preparation of financial statements for single entities.
- In BA4 students will gain an understanding of the professional standards to be demonstrated for the benefit of all stakeholders.

Mastering

The new CIMA 2015 syllabus was a radical and brave change. Technology is fully embraced by the professional body with the end of the paper-based exam.

The 70% pass mark for the Objective Test papers means the traditional approach to study is no longer fit for purpose. Students will need to master the subjects. The Integrated Case Study is based on the three underpinning subjects – again the students need to have ‘mastered’ the syllabus.

A flipped classroom was introduced by the Khan Academy as a proven approach to mastering technical subjects.

Through our flipping classroom, our trainees access pre-recorded videos that they control (they can watch, rewind, pause and fast-forward as needed) prior to attending the masterclass sessions, where ‘in-class’ time is devoted to application of knowledge.

The value of our flipped classroom is both in allowing trainees to watch the recordings and learn at a time and pace that suit them, in addition to repurposing masterclass time into activities where trainees test their skills and apply their knowledge – delivering a full mastering of skills.

CIMA Professional Qualification

The CIMA Professional Qualification is recognised worldwide as the most relevant global finance qualification for a career in business.

By studying with CIMA you will be joining a global organisation powered by two of the world's leading accounting bodies (AICPA – the American Institute of Certified Public Accountants and CIMA). We work together to make management accounting the most valued profession in business worldwide.

On completion of the CIMA Professional Qualification, you will be awarded the Chartered Global Management Accountant (CGMA) designation, recognising your value and showcasing your professionalism, business and leadership skills, ethics and commitment.

There are three learning pillars in the Professional Qualification:

- The Enterprise pillar focuses on how to formulate as well as effectively implement strategy. It emphasises how change management, project management and relationship management and the structuring of organisations can help to successfully implement strategy.
- The Performance pillar uses the tools and techniques of management accounting and risk management to ensure a realistic strategy and to monitor implementation. It covers budgets and cost management and develops the ability to identify, classify, evaluate and manage risk.
- The Financial pillar focuses on how to prepare and interpret financial statements with an understanding of the regulatory framework and external reporting requirements. It looks at tax implications of financing decisions and formulating financial strategy.

On completion of the Operational level you are awarded with the **CIMA Diploma in Management Accounting** qualification, and on completion of the Management level you gain the **CIMA Advanced Diploma in Management Accounting** qualification.

HTFT's CIMA OT Resit Programme

Sometimes the exam day doesn't go to plan, and you don't get the result you want. We recognise that when this happens you don't necessarily want to sit through another full programme of tuition (especially if you want to get straight back on it); you would rather focus on honing your exam technique.

In responding to this need, we have created **CIMA Resit**.

Our Resit programme focuses on providing you with exposure to CIMA exam standard mocks and questions with high quality feedback that you can re-watch.

We start by asking you to join a live online CIMA Objective Test introduction session – focusing on an overview of the syllabus (with a detailed look at one Section) and some analysis of where students normally have issues.

After this introduction session you will be asked to attempt our purpose built Resit mock – 60 questions, split by section in 90 minutes.

In the afternoon, you will log back into a live online debrief of the Resit mock you have just sat – this is all recorded and then uploaded onto our Online Learning Community for you to watch back.

We follow up with 2 additional CIMA OT mocks exams (written by HTFT) with answers and rationale.

Our ACCA Resit offer is unique in the market and is only available to students who have sat a CIMA OT exam in the last month and achieved a scale score of between 88 and 98.

As a student the flexibility HTFT offers is what makes it ideal for me, effectively the course is focused around me!
