

Level 4 PROFESSIONAL ACCOUNTING/TAX TECHNICIAN APPRENTICESHIP

DELIVERED BY

HTFT PARTNERSHIP

Apprenticeship Levy

The Apprenticeship Levy is a levy on UK employers to fund new apprenticeships.

If you have a UK wage bill of over £3m, you will be required to pay 0.5% of that into a levy. In England, control of apprenticeship funding will be put in the hands of employers through the Digital Apprenticeship Service.

The government is committed to boosting productivity by investing in human capital. As part of this, the government is committed to developing vocational skills, and to increasing the quantity and quality of apprenticeships. It has committed to an additional 3 million apprenticeship starts in England by 2020. The levy will help to deliver new apprenticeships and it will support quality training by putting employers at the centre of the system.

The levy is the government's solution to funding the increase in numbers and putting control of the funding in the hands of employers.

Apprenticeship Standards: overview

Apprenticeships are changing. From 2017 the government will replace existing Apprenticeship frameworks with employer-designed Trailblazer 'standards', based around specific job roles which detail the Knowledge, Skills and Behaviours an Apprentice would have to demonstrate to prove competence in that role.

Apprenticeship Standards: the components

Each standard will contain the following key elements:

On-programme training and learning

On-the-job and off-the-job training and learning need to develop the apprentice's knowledge, skills and behaviours.

Gateway to end-point assessment

Towards the end of the apprenticeship, employers and providers will 'sign-off' the apprentice as being ready for end-point assessment.

Professional Accounting/Tax Technician Apprenticeship Standard (Level 4)

Overview of standard

Occupation: Professional Accounting/Tax Technician

Duration: Typically 18 to 24 months

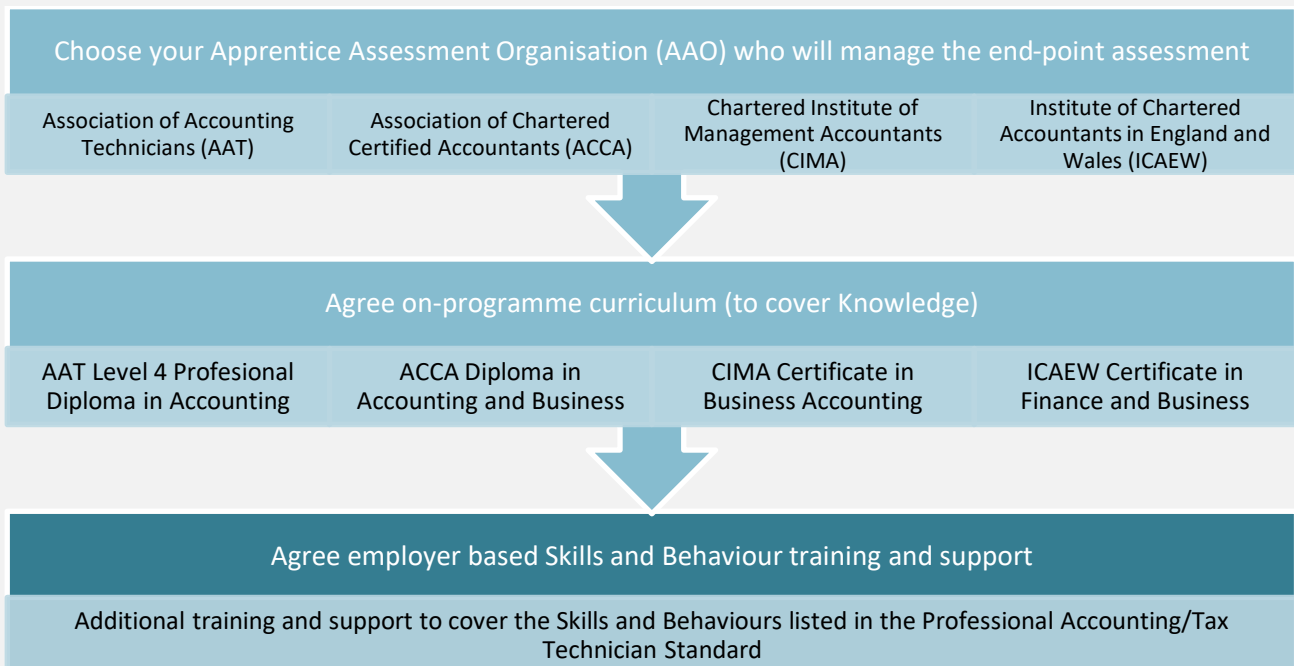

Level: 4

Funding band: £8,000

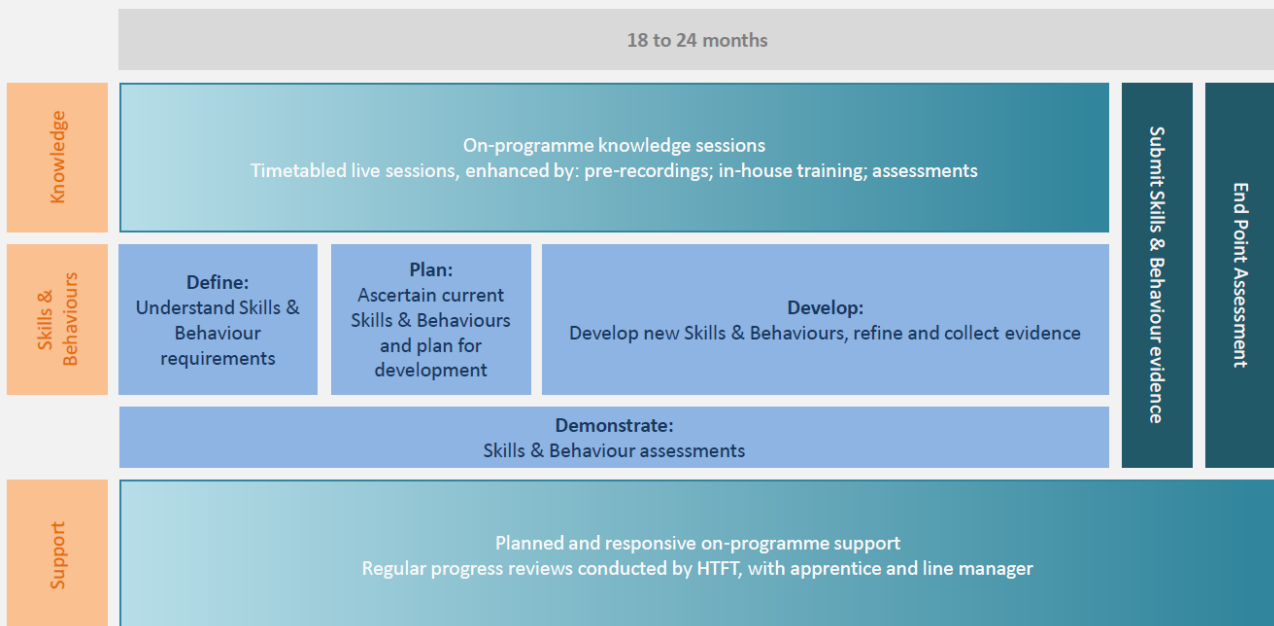

Role profile: Individuals in the role of a Professional Accounting/Tax Technician will have responsibility for creating, and/or verifying and reviewing, accurate and timely financial information within the organisation in which they are employed or on behalf of another organisation. This will be performed in order to meet relevant ethical, professional and legal standards, and will utilise the individual's knowledge of the business systems and processes, as well as standard accounting and tax practices. This role may exist in an accounting practice, a professional services company, HMRC or the accounting function of a business or other organisation.

Planning your Apprenticeship programme

In addition to the planning required to identify where apprentices fit into workforce planning; gain wider support, advertise for and recruit apprentices, there are some fundamental activities that we will support you through to ensure your Apprenticeship programme works for you.

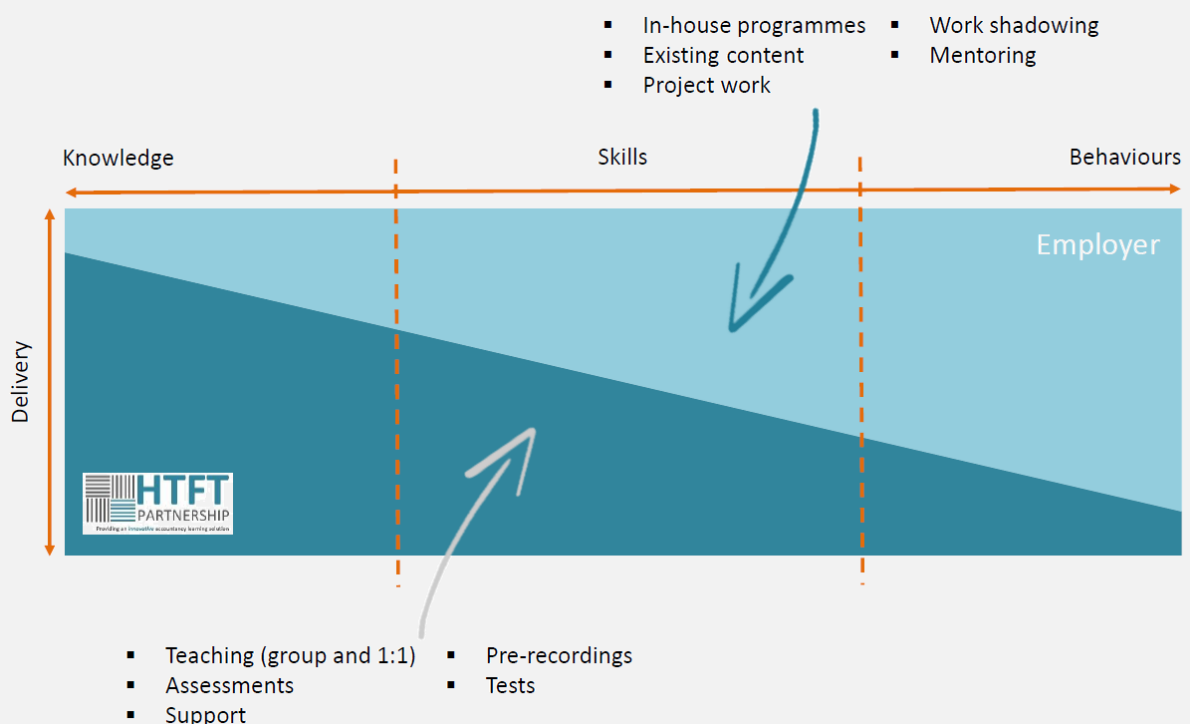

Professional Accounting/Tax Technician Apprenticeship overview

Partnership model

Our aim is to create and deliver Apprenticeship programmes that grow the skills and competence of new and existing employees.

HTFT will be responsible for the majority of the technical knowledge and together, we will jointly develop the apprentice's skills and behaviour:

Eligibility

The key eligibility criteria include:

- Have the right to work in the UK (ordinarily resident for 3 years)
- 16 in academic year they start their Apprenticeship
- Able to complete Apprenticeship in contracted time i.e. 12 month contract won't now cover length of programme
- Spend 50% of their time working in the English borders
- Not be enrolled on another Apprenticeship
- Not asked to contribute financially to any costs of the Apprenticeship
- Existing members of staff and graduates eligible **as long as** receiving significantly new training

Potential apprentices will need to have English and maths to GCSE level. If they have not reached this level, or can't not evidence they have, we can help.

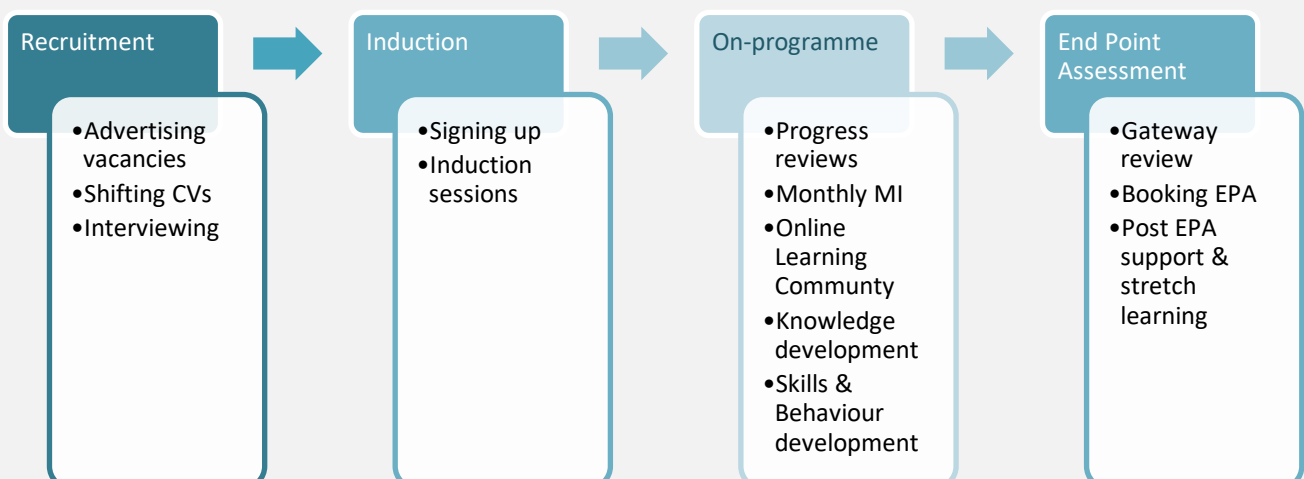

Support

As a leading professional accountancy training provider we're skilled in managing funded learning and have invested in the technology required for successful Apprenticeship delivery.

We can provide levy and non-levy paying employers with a full management service where you can utilise our experience and special training resources and design Apprenticeship programmes that deliver the results you want.

- We make sure you get most from Apprenticeship funding and/or your digital account.
- We manage administration and ensure compliance with funding rules and guidance.
- We can provide recruitment and assessment services.
- We'll guide your apprentices to success and arrange their End Point Assessment.

Our core support for the Professional Accounting/Tax Technician Apprenticeship comprises:

Apprenticeship Funding

Each new Apprenticeship Standard has been awarded a funding cap.

Levy payers can pay for the programme through their digital account. Non-levy payers are eligible to receive 95% funding through co-investment with a government backed scheme. Therefore trainees are able to gain a professional qualification at a fraction of the traditional cost.

The funding cap for the Professional Accounting/Tax Technician Apprenticeship is £8,000

Monitoring and quality assuring your Apprenticeship programme

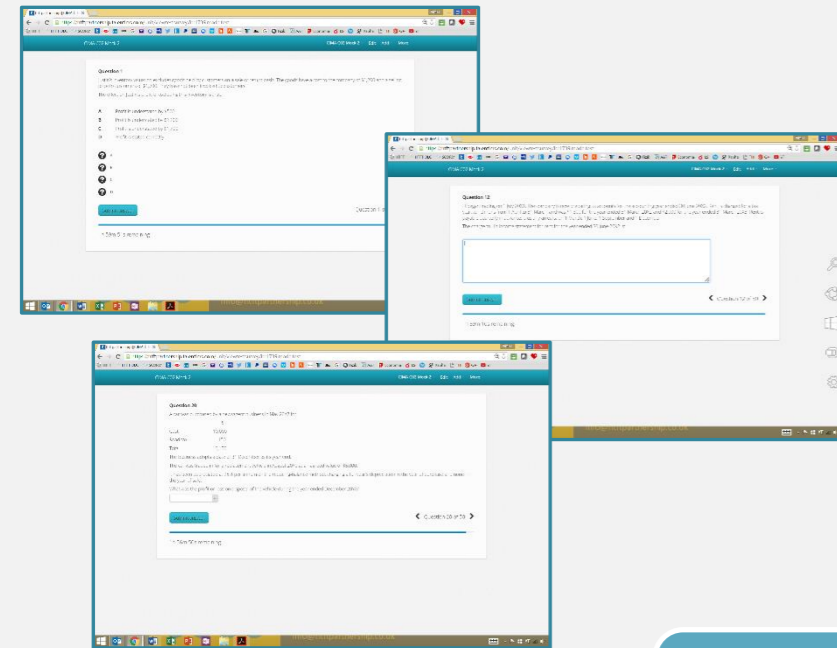

Our quality assurance is underpinned by our approval by professional accountancy bodies to deliver their training programmes.

Specifically for our Apprenticeship programmes, our monitoring and quality assurance will cover:

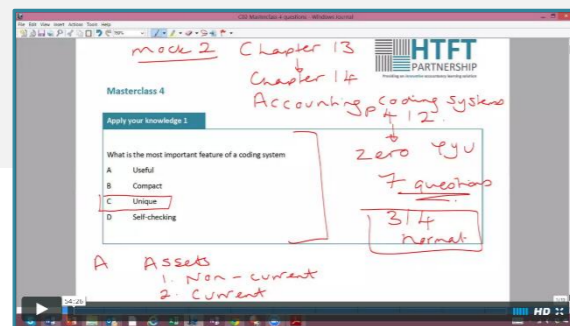

Regular apprentice progress reviews, structured (holistic) reporting and employer review meetings will be built into the Apprenticeship timetable before the on-programme training commences.

What sets HTFT Partnership apart?

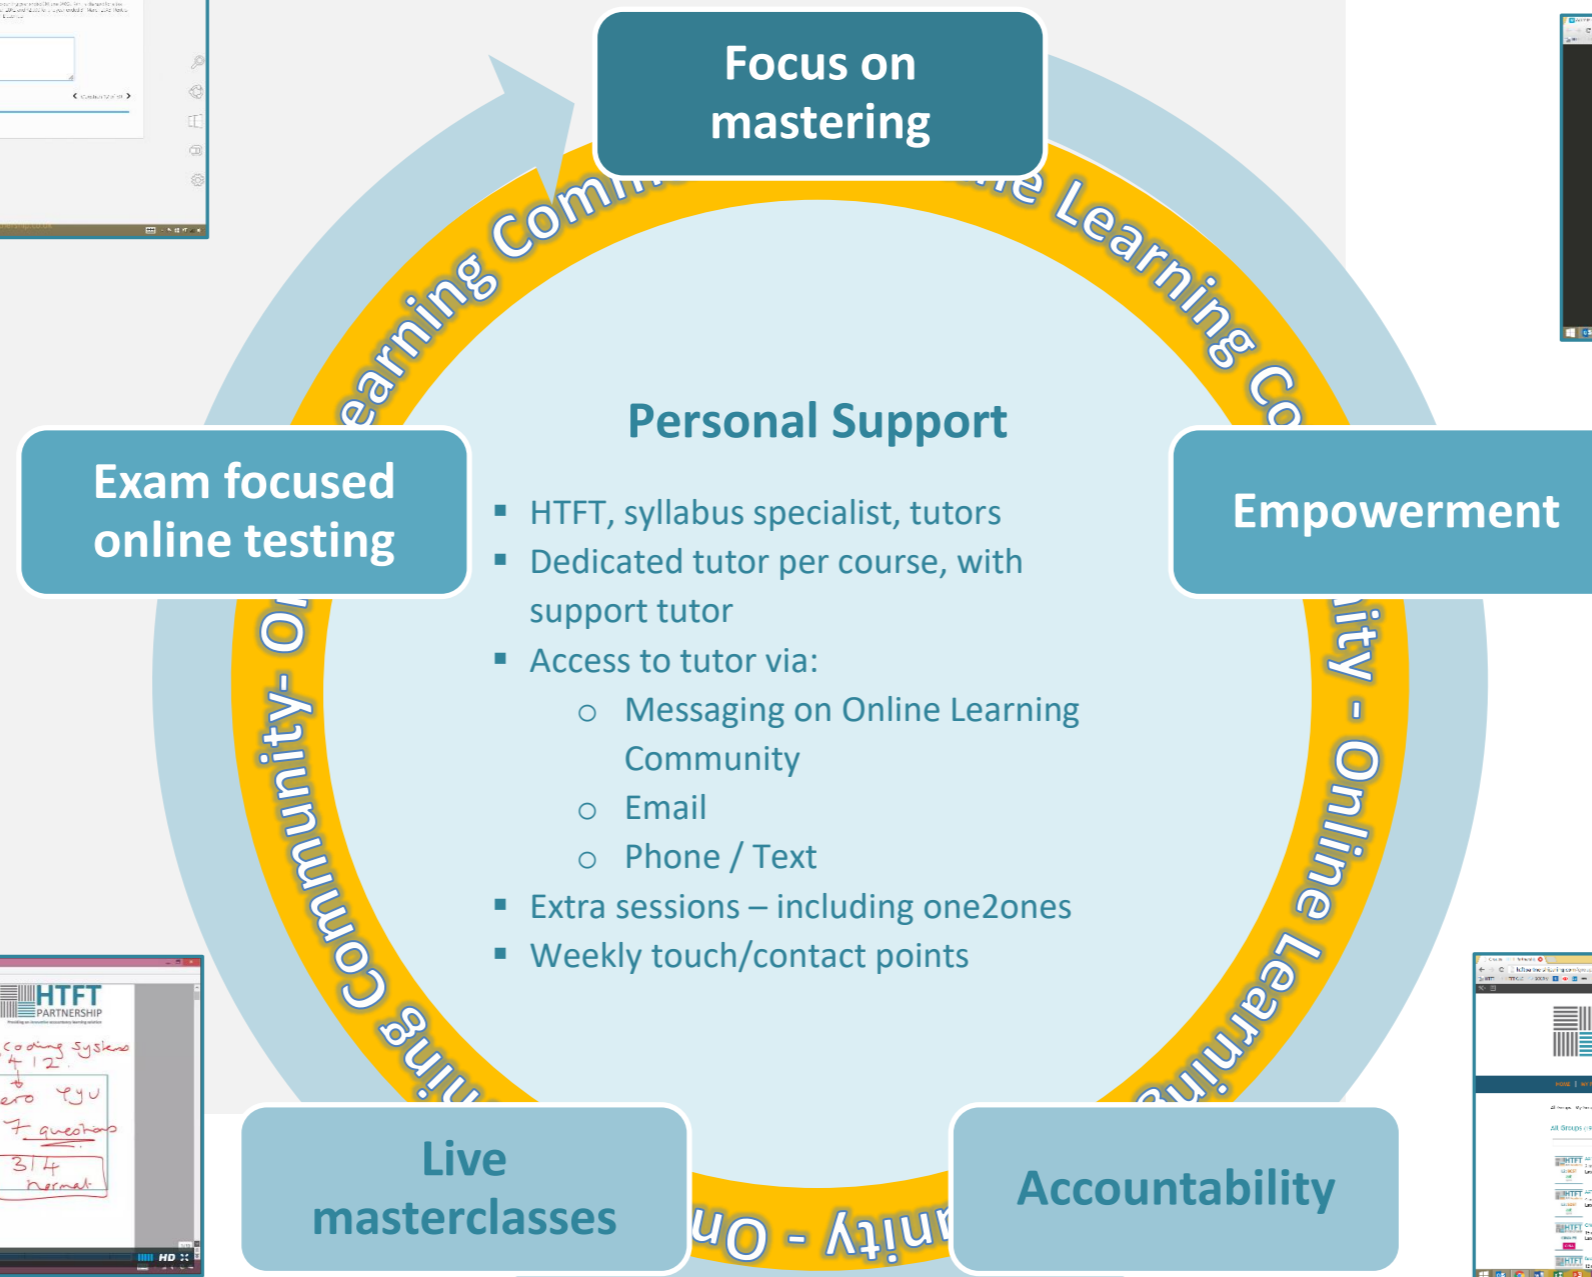

- Section tests
- Learning outcome focused tests
- HTFT mock exams
- Instant feedback and rationale
- Mock debriefs
- Tutor led feedback
- Reporting to employers is facilitated

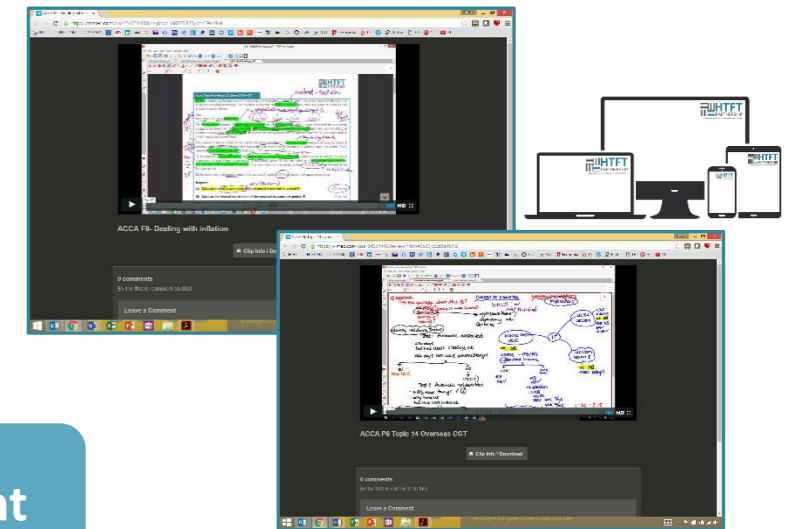

- On screen models to reflect real exams
- Early exposure to rigorous exam standard questions
- Focus on how syllabus is examined
- Encourage higher level discussions about why right answers are right, and why wrong answers are wrong
- Put syllabus into work based context

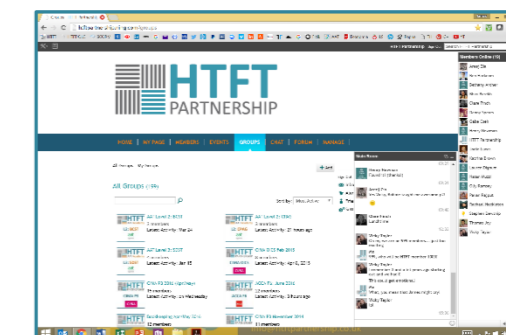

Flipping the classroom

- HTFT, syllabus specialist, tutors
- Dedicated tutor per course, with support tutor
- Access to tutor via:
 - Messaging on Online Learning Community
 - Email
 - Phone / Text
- Extra sessions – including one2ones
- Weekly touch/contact points

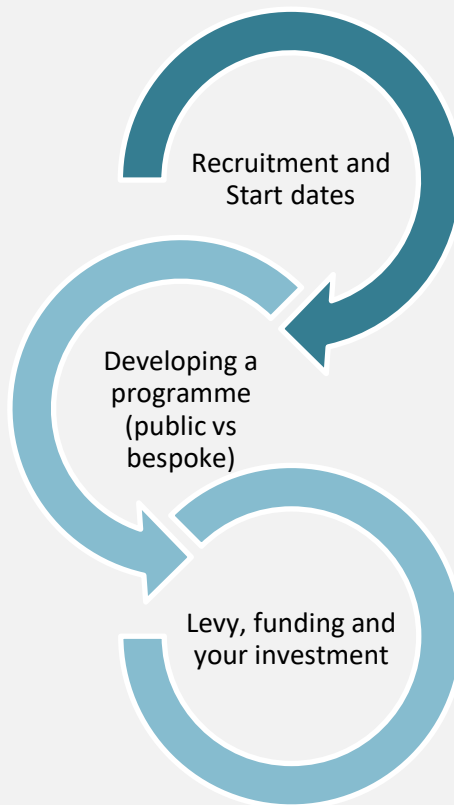

- All learning outcomes recorded in bite-sized videos, in HD, that can be watched on all devices and downloaded to be watched offline.
- All resources available from day one

- Pre-class quizzes
- Students feel they are progressing
- Weaknesses identified
- Students empowered to address weaknesses
- Tutors can identify problem areas pre live masterclasses
- Reporting to employers facilitated

Next steps

Why HTFT Partnership?

HTFT was founded on the vision and promise of offering a real alternative to professional accountancy training.

We're committed to digital delivery. We're committed to delivery models that reflect how you learn. That means putting flexibility and leading edge technology at the heart of our delivery.

We put learning and mastering first. Our innovative approach to skills training 'flips' the traditional model of training on its head. We provide a structure that allows individuals to engage in pre-recorded videos followed by in-class exercises: allowing the tutor's role to change from instructor to coach and mentor.
